

SCHONKOST

Cottage cheese / potato / carrot

Now and then, a virus, bacterial infection or some other intolerance occurs and your dog suffers from diarrhoea or a sensitive stomach. The best advice in this case: a diet of light food over a few days.

As easy as that may sound, not everyone has the ingredients needed to be able to prepare this sort of food at home.

Anifit has just the solution for emergencies, and it's ready to serve in just 10 minutes!

The light meal option "Cottage cheese / potato / carrot" is not an all-in-one food and therefore doesn't provide a fully balanced diet but is intended to be used over a short period of time as a light alternative to normal dog food.

This meatless alternative food is especially easy to digest.

The food simply needs to be mixed with hot water (2.5 parts water to 1 part food) and left to stand for 10 minutes.

- Easy to digest
- Free from additives, 100% natural
- Especially hypo-allergenic
- Can be stored for long periods

Feeding recommendation (daily portion based on the weight of the fully grown dog):

Dogs weighing up to 5kg: 50g,
Dogs weighing up to 25kg: 100 g,
Dogs weighing up to 40kg: 200g

Ingredients

50 % freeze-dried cottage cheese, 40 % potato, 10 % carrot

Analytical components:

35 % raw protein, 12 % raw oils and fats, 1.8 % raw fibre, 4.5 % crude ash
